International School of Belgrade, Serbia

Founded in 1948 by the wife of the British Ambassador, Lady Peak, the Foreign Colony School was housed in two rented rooms at the American Mission. One staff member, assisted by mothers, taught elementary children using British texts. The wife of the American Ambassador became the first chairperson of the School Board in 1949.

ISB moved to its present Lower School residential location since 1957 when the villa in existence was re-modeled.

In the spring of 2003, ISB inaugurated the opening of the second campus for grades 6 through 12. To cater for expanding student population, in the fall of 2005, grades 6-8 were moved to a newly renovated third campus within walking distance of the other two campuses. ISB proudly broke ground December 2011 for the construction of the new middle school which will house the entire secondary school on one campus.

Thousands of children have passed through the portals of knowledge at ISB over more than half a century since the school was founded. The future looks bright, not only for the International School of Belgrade, but also for the country as a whole.
