CEESA and ECIS Joint Initiative

Bonnie Campbell-Hill and Carrie Ekey have developed a two-year Literacy Coach Training Program to help new and aspiring literacy coaches support their schools, while deepening their own knowledge of literacy and assessment. They will learn ways to facilitate small groups of teachers in analyzing student work, begin to understand adult learners, as well as analyze the curricular components necessary to a balanced literacy program. Mid-way through the first year, Shannon Stanton or Katherine Casey, literacy consultants, will join the group and provide training in coaching models of demonstration teaching, coaching conferences, and side-by-side coaching.
